

Pairings: Will be published on the UHSAA web site in the wrestling section www.uhsaa.org.

Weight Control Program:

The weight control program will be as stated in rule 1, Section 3 of the NFHS Wrestling Rule Book. Certified minimum weight using body fat composition is required. More information as to procedures for body fat composition testing is available on the UHSAA website. Wrestlers are ineligible to participate in any matches until they have successfully completed the body fat composition test and their name appears on the team's alpha master list. No tests will be valid if performed prior to the first legal day of practice or after the **Friday immediately prior to the first post-season tournament for that classification.** (note: a wrestler who fails the hydration test may not re-test for 48 hours. A wrestler who fails hydration on Thurs, Jan. 21 and whose region or divisional tournament is scheduled the following week would not be able to get a valid test). Once a minimum weight is established and appeals, if any, exhausted a wrestler may not re-test to establish a lower minimum weight.

Each wrestler is required to have at least one official weigh-in before being entered in the **initial post-season** tournament. No weigh-ins will be counted as official until after the wrestler has successfully completed the UHSAA Body Fat Composition Test to determine a minimum weight. The weigh-in for a **post-season** tournament does not fulfill this requirement. In order to count a weigh-in as an official weigh-in, the wrestler's team must be competing in the match or tournament. No wrestler may compete in a weight class that requires them to lose more than 1.5% of their weight per week except in the case of a legal weight allowance which is greater than 1.5% of the wrestler's weight class and when a wrestler weighs in at the same weight class at which he made weight with the allowance. Further rules regarding the UHSAA Weight Control Program are found at www.uhsaa.org in the wrestling section.

Wrestling coaches are required to enter each wrestler's actual weight from the first weigh-in each week (Monday-Sunday) online in their school's file at the NWCA website within 48 hours of the conclusion of the match or tournament for which the weigh-in occurred. Verification of each wrestler's allowed minimum weight for that weigh-in must be provided before the weigh-in for each competition. Coaches should keep a record of each weigh-in. Coaches will need documentation if questions arise regarding the minimum weight of a wrestler at a **post-season** tournament.

Whenever a legal allowance of weight is given for consecutive days of competition, the minimum weight for a wrestler will increase for that weigh-in by the same amount as the allowance. For example: a wrestler whose minimum weight for a particular day is 104 lbs. and his team is competing in a tournament in which a legal allowance of 1 lb. is given, then his minimum weight for that weigh-in would also increase by 1 lb. to 105. That means that he would not be eligible to weigh-in at the 103 lb. class even with the allowance. On January 1st a two pound growth allowance will be added to each weight class as well as the minimum weight for each wrestler. Allowances cannot be used to drop to a lower weight class than a wrestler's minimum weight allows him to compete in without the allowance. Schools must follow the NFHS Wrestling Rule Book for official weigh-ins. Allowances other than for consecutive days of competition and for the growth allowance are a violation of the rules.

Post-Season Tournaments

Post-season tournaments must be conducted according to NFHS rules including weigh-ins conducted at the tournament site each day of the tournament.

Qualifiers for the state tournament are to be entered on line at www.uhsaa.org wrestling section by the **qualifying** tournament director by midnight on the final day of the **qualifying** tournament.

All entries for the state tournament are to be verified prior to the beginning of the initial weigh-in for the tournament in that classification (1A, 2A, 3A, 4A or 5A). The beginning of the initial weigh-in for a classification (1A, 2A, 3A, 4A or 5A) constitutes the deadline for verification of entries in the state tournament referred to in rule 10-2-1. The beginning of the weigh-in occurs when the first weight class in the classification officially reports to the scales.
