

Pole Vaulter's Weight Verification Form

Weight verification for each pole vaulter is required by NFHS Rule 7-5-3. Toward that end, a weight verification form shall be completed by the school coach and each vaulter and be on file in the athletic director's office prior to the vaulter's first competition. A vaulter shall not be allowed to compete while using a pole which has a manufacturer's rating of less than the vaulter's actual weight including full competition uniform and footwear. The purpose of this form is to ensure each individual school has verified weight and poles and that the school's vaulter(s) is(are) competing with a legal pole at each competition.

It is the responsibility of the individual school to ensure that the pole being used is rated by the manufacturer for the weight of the vaulter. The required signatures on this form are evidence that all parties are aware of the risks involved when a vaulter competes with an illegal pole and that both the competitor and his/her pole are in compliance with the rating and weight requirement rule.

School: _____

Name of Vaulter(s)	Weight*	Pole Rating(s)
1. _____	_____	_____
2. _____	_____	_____
3. _____	_____	_____
4. _____	_____	_____
5. _____	_____	_____

*Includes full competition uniform and footwear

Date _____ Signature of Principal _____
